

CHUCKBUDDIES

What can you do with CHUCKBUDDIES?

CHUCKBUDDIES were born and designed to spark the imaginations of not only snowboarders, but the young at heart!

CHUCKBUDDIES simulate the spins and tricks of snowboarding through gentle manipulation of the CHUCK in the palm of your hand and with your fingertips.

After a few minutes of gently bouncing CHUCK in the palm of your hand you will start to learn the technique of manipulating the CHUCK around your hand and fingertips. When you've got it you will be able to slow down the spins and flips for ultimate style points.

Start with your CHUCKS world being limited to the palm of your hand, perfecting spins, flips, stalls and combining grabs. Then take your CHUCK on tour expanding his world to include jumps, rails and everything in between.

Grab a camera and film your CHUCK in action! Check out the videos and pictures at <http://www.chuckbuddies.com>
